

Noctua NA-CW1 / NA-SCW1

Noctua NA-CW1 / NA-SCW1 safety data sheet

According to Regulation (EC) No 1907/2006 (REACH)

Version: 1.1

Date: 2025-07-07

Rascom Computerdistribution Ges.m.b.H.

Linzer Straße 237

A-1140 Vienna, Austria

Tel. +43 (1) 494 13 95 - 0

Fax. +43 (1) 494 13 95 - 10

Section 1

Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name / designation: Noctua NA-CW1 / NA-SCW1

1.2. Relevant identified uses of the substance or mixture and uses advised against

Cleaning wipes for removing thermal paste (especially in PC environments)

1.3. Details of the supplier of the safety data sheet

Rascom Computerdistribution Ges.m.b.H.
Linzer Strasse 237, A-1140 Wien, AUSTRIA
Tel.: +43 (1) 494 13 95 - 0
Email: sales@noctua.at / www.noctua.at

1.4 Emergency telephone number:

England and Wales: National Poison Information Service, 0845 46 47
Scotland: National Poison Information Service, 08454 24 24 24
USA: American Association of Poison Control Centers, 1-800-222-1222
Australia: Poisons Information Centre, 13 11 26

Section 2

Hazards identification

2.1. Classification of the substance or mixture

This product does not meet the criteria for classification in any hazard class according to Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures.

2.2. Label elements

none

2.3. Other hazards

none

Section 3

Composition

3.1. Description of the mixture

Nonwoven impregnated with water and isopropyl alcohol

3.2. Ingredients

Substance name	CAS-No.	INDEX No.	EC-No.	Concentration	Classification according to Regulation (EC) Nr. 1272 [CLP]	SCL and/or M-factor
Water	7732-18-5		231-791-2	85%	Not classified	
Isopropyl alcohol	67-63-0	603-117-00-0	200-661-7	15%	Flam. Liq. 2, H225 Eye Irrit. 2, H319 STOT SE 3, H336	

Full text of h-phrases: see section 16.

Note: The hazardous features described in this section only concern the pure ingredients, not the mixture (product). For the classification of the product, see section 2.

Section 4

First aid measures

4.1. Description of first aid measures

- **General information:** if used properly under normal circumstances, no adverse effects are to be expected.
- **Following skin contact:** no first aid measures required. If skin irritation occurs after prolonged exposure, wash with soap and water.
- **Following inhalation of vapours:** no first aid measures required. If breathing difficulties occur after inhaling intensely heated vapours, move the person into the fresh air and seek medical advice.
- **Following eye contact:** rinse eye with water. Seek medical advice if irritation persists.

- Following ingestion: rinse mouth and seek medical advice. Do not induce vomiting.
- Self-protection of the first aider: Not required.

4.2. Most important symptoms and effects, both acute and delayed

- If used properly under normal circumstances, no adverse effects are to be expected
- Prolonged skin contact can cause skin irritation.
- Eye contact can cause eye irritation.
- Inhaling intensely heated vapours can cause breathing difficulties.

4.3. Indication of any immediate medical attention and special treatment needed

none

Section 5

Firefighting measures

5.1. Extinguishing media

- Suitable extinguishing media: foam, spray, water jets. Dry extinguishing agents, carbon dioxide (CO₂) or sand, should only be used for small fires. Foam or spray should be used for bigger fires.
- Unsuitable extinguishing media: water jets may spread fire.

5.2. Special hazards arising from the substance or mixture

Hazardous combustion products: none known.

5.3. Advice for fire-fighters

Full protective clothing and breathing apparatus are advised.

Additional information: product is not classified as flammable but will burn.

Section 6

Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Measures of precaution: avoid eye contact.

Protective equipment: if there is danger of eye contact, use safety glasses with side shields.

Emergency procedures: see section 4.1.

For emergency responders

Personal protective equipment: if there is danger of eye contact, use safety glasses with side shields. Also see section 5.3.

6.2. Environmental precautions

Do not allow to enter soil, waterways or waste water.

6.3. Methods and material for containment and cleaning up

- For containment: barriers and sealing measures. All standard materials can be used.
- For cleaning up: pick up, clean with water and standard household cleaning agents.

6.4. Reference to other sections

See also section 8 and 13

Section 7

Handling and storage

7.1. Precautions for safe handling

Ensure sufficient room ventilation and avoid eye contact. Do not ingest. Practise good industrial hygiene. Wash hands with soap and water after use, especially before eating, drinking or smoking.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels: store at room temperature in original packaging and avoid direct sunlight. Store away from heat, flame and other sources of ignition.

7.3. Specific end uses

For use as a cleaning wipe to remove thermal paste, especially in PC environments.

Section 8

Exposure controls/personal protection

8.1. Control parameters

none

8.2.Exposure controls

Personal protective equipment:

- Eye/face protection: not required for proper use under normal circumstances.
- Hand protection: not required for proper use under normal circumstances.
- Body protection: not required for proper use under normal circumstances.
- Other skin protection measures: wash with soap and water after usage, especially before eating, drinking or smoking.
- Respiratory protection: not required for proper use under normal circumstances.

Environmental exposure control:

No special measures required.

Section 9

Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance: Moist
wipe made from
nonwoven fabric
Colour: white
Smell: slight
Flash point: does not flash

Section 10

Stability and reactivity

10.1. Reactivity:

See section 10.3.

10.2. Chemical stability:

Under storage at normal ambient temperatures (minus 40° C to + 40° C), the product is stable. No hazardous reaction when handled and stored according to provisions.

10.3. Possibility of hazardous reactions:

None known

10.4. Conditions to avoid:

Contact with ignition sources

10.5. Incompatible materials:

None known

10.6. Hazardous decomposition products:

None known

Section 11

Toxicological information

11.1. Information on toxicological effects

The following information concerns the entire mixture (product), not its separate ingredients (see section 3 for information regarding the pure ingredients).

- Acute toxicity: no
- Irritation: direct eye contact can be uncomfortable and cause temporary redness.
- Corrosivity: no
- Sensitisation: none known
- Repeated dose toxicity: none known
- Carcinogenicity: none known
- Mutagenicity: none known
- Toxicity for reproduction: none known
- Allergic reactions: none known
- Specific target organ toxicity (single exposure): none known
- Specific target organ toxicity (repeated exposure): none known
- Aspiration hazard: None with proper usage under normal conditions.

Section 12

Ecological information

12.1. Toxicity

Aquatic toxicity: none known

Other ecotoxicological effects: none known

Section 13

Disposal considerations

13.1. Product disposal

Dispose of in accordance with Federal, Provincial or Local regulations.

13.2. Packaging disposal

The packaging materials can be disposed of according to local regulations.

Section 14

Transport information

14.1. UN-No.

Not applicable.

Additional information: As NA-CW1 does not classify as hazardous according to the *United Nations Recommendations on the Transport of Dangerous Goods*, it does not fall under the UN number or shipping name designation. While NA-CW1 contains a low percentage of Isopropanol that qualify as hazardous in raw material form (see section 2), the mixture (product) is not hazardous and therefore does not require a UN number as per section 3.1.3.1 of the *United Nations Recommendations on the Transport of Dangerous Goods*, 21st edition 2019 ("A mixture or solution is not subject to these Regulations if the characteristics, properties, form or physical state of the mixture or solution are such that it does not meet the criteria, including human experience criteria, for inclusion in any class.", c.f. https://unece.org/fileadmin/DAM/trans/danger/publi/unrec/rev21/ST-SG-AC10-1r21e_Vol1_WEB.pdf)

14.2. UN Proper shipping name

Not applicable (see additional information in section 14.1)

14.3. Transport hazard classes

none

14.4. Hazard labels

none

14.5. Environmental hazards

none

14.6. Special precautions for user

none

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

No transport in bulk.

Additional information: not a dangerous good according to ADR/RID, ADN, IMDG or ICAO-IATA/DGR.

14.8. DOT road shipment information (49 CFR 172.101)

No subject to DOT.

14.9. Classification for sea shipment (IMO/IMDG)

Not subject to IMO/IMDG codes.

14.10. Classification for air shipment (ICAO/IATA)

Not subject to ICAO/IATA regulations.

Section 15

Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

- EU regulations: regulation (EC) No. 1907/2006, regulation (EC) No. 1272/2008, regulation (EC) No. 453/2010, regulation (EC) No. 2015/830
- Authorisations: not required
- Restrictions on use: none

15.2. Chemical Safety Assessment

A chemical safety assessment is not required for this product.

Section 16

Other information

16.1. Indication of changes

Version 1.0 (25.8.2022): initial creation

16.2. Relevant H-phrases in section 3

H225 Highly flammable liquid and vapour.
H319 Causes serious eye irritation.
H336 May cause drowsiness or dizziness

16.3. Further information

This safety data sheet has been created conscientiously and to the best of our knowledge on the basis of data provided by our pre-suppliers. Rascom takes no responsibility and will not be liable for the accuracy or completeness of the provided information. The safety data sheet is meant to give guidance for safely using, storing, transporting and disposing of the product, but it is not to be regarded as a guarantee of the product's properties and cannot be the basis of a legal relationship. The information contained within this safety data sheet is not applicable to any other product and if the product is processed or mixed with other materials, the information does not apply to the resulting material. It is the responsibility of the user to respect laws and regulations. As the various possible conditions and influences in transport, storage, usage and disposal of the product are beyond our control and knowledge, the user is solely responsible for taking the necessary precautions. The safety data sheet does not guarantee that there cannot be other hazards and measures than the ones described in the document. In particular, Rascom explicitly cautions against possible risks due to improper usage of the product which cannot be discussed within the safety data sheet.
